Visualizing Filipino-Canadian Families in Transition

Photo-voice Projects:
A Photo Exhibit and Community Discussion

This public event will showcase the life experiences of a former live-in caregiver and a group of Filipino youth living in Canada, separated from family due to the Live-in Caregiver Program (LCP). Through photographs and descriptions, the participants illuminate their lives as temporary foreign workers and as members of their transnational families.

Everyone is invited to view the photos, to hear from researchers and community members, and to engage in a discussion of the issues facing transnational Filipino families and LCP workers.
