Harder. Better. Faster. Stronger. Middle- and low-income countries are increasingly giving rise to affordable, disruptive, robust innovations, and leapfrog technologies in health. They are also employing novel approaches to address health workforce challenges. These approaches seek, among other things, to enhance marginalized populations’ access to health and social services. What can Canada’s health care system learn from these successes?

**PRESENTERS**

**VIVA DADWAL** – Senior Fellow for the Centre on Governance at the University of Ottawa

**SARA TORRES** - Ph.D. Chercheure postdoctorale, Institut de recherche en santé publique de l’Université de Montréal (IRSPUM)
