**Assembling a database for academic research**

Professor Pongou is looking for a student who can help him assemble and document a database related to one of his on-going research projects. The project will involve working on one of the following topics:

- *Racial Discrimination in the Field of Economics* – he is examining anti-black discrimination in particular within economics
- *The Impacts of Infrastructure in Africa*

The choice of topic will be determined by Professor Pongou and the student after an interview.

**Required skills:**

The student should have good English writing skills.

**Supervisor:**

Roland Pongou

Department of Economics

University of Ottawa
